2024 GLENWILLOW CONCRETE PROGRAM

The Village's annual concrete pavement maintenance program for 2024 will include repairs on Pettibone Road between Austin Powder and Cochran Roads. As part of this work the contractor will need to perform repairs that will require the closure of Pettibone Road. This closure will allow motorist and the construction crew to operate in a safe environment while the repairs are performed. This closure will begin August 19th by 8 am and will last up to seven (7) days.

The Village's contractor will have a detour posted that will use Austin Powder to route traffic around the construction zone. All businesses along Pettibone Road between Austin Powder and Cochran Road will have access from Austin Powder through Town Centre Drive by Avery Lake. Please use caution while driving through this area and pay close attention to pedestrians and other vehicles.

Thank you for your patience while we continue to improve the Village's infrastructure and make needed repairs to our streets. If you have questions concerning the project, please contact Michael Henry of Chagrin Valley Engineering at (440) 439-1999.

Sincerely
Chagrin Valley Engineering, Ltd

Michael Henry, P.E.
Village Engineer
