NEW BUSINESS

Journey Roth, Progressive Companies, agent for 43500 Victory Limited, owner of 43500 Victory Parkway, permanent parcel 99122113, is requesting site approval for the addition of fencing, security gates, and guard house. Electrical scope to bring power to guard house and gates. No plumbing scope. The property is zoned General Industrial District.

Amazon is proposing a new security fence and guard shack as part of a site alteration. Under Section 1139.07(c), fences and walls are permitted in Business and Industrial Districts provided they are of uniform design and well maintained. Because this project involves site modifications, the entire fence installation and guard shack fall under the Planning Commission's discretion for review and approval.
